672-2-.01 Definitions. Amended. The following words when used in Chapter 672-2 shall have the following meanings:

(a) Non-divisible load or vehicle: Non-divisible loads or vehicles will have the same meaning, unless otherwise exempted, as listed in the current edition of the Code of Federal Regulations (CFR) 23, Part 658.5 titled definitions or Georgia Code 32-6-28. No load or vehicle shall be issued a permit whose weight, width, length or height can be readily dismantled or separated.

(b) Continuous Movement: Allows a permitted load or vehicle of legal overall dimensions with a gross weight of less than 125,000 pounds to travel twenty four (24) hours per day, seven days per week. However, no oversize or overweight load movement is allowed during inclement weather and holidays as defined in Department. Rule 672-2-.03(c).
(c) Containerized Freight: A sealed container with an origin or destination being a port used for international trading. The driver must be prepared to show an international bill of lading. A 40’ box container is allowed a gross vehicle weight of 100,000 pounds on a five (5) axle tractor/trailer combination. A 20’ box container is allowed 80,000 pounds with a tandem weight of 44,000 pounds. A 20’ box container transported on a 40’ center mount or center-mount triaxle trailer is allowed a vehicle gross weight of 100,000 pounds on a five (5) or more axle tractor/trailer.

(d) Emergency Towing: When a tractor/trailer combination becomes disabled, an authorized permitted wrecker may transport the disabled tractor/trailer to a repair facility or a safe location to dismantle the tractor/trailer. If the closest location is a weigh station or rest area, transporters are authorized to leave dismantled tractor-trailers, at that location however, they must be moved within a twenty-four (24) hour period or be moved at the owners expense. No State Agency shall be responsible for any damages to tractor-trailers left on State property.

(d)(1) Incident Management: for companies certified and registered under the Towing and Recovery Incentive Program (TRIP) to reduce the impact of major incidents in Metro Atlanta by clearing vehicle incidents in 90 minutes or less, if the dimensions and weights of towing vehicles exceed legal limits, they will be required to obtain a permit for specialized equipment but may exceed axle or gross weight while participating in clearing major incidents in the Metro area.

(e) House: A residential dwelling or building in excess of sixteen (16) feet wide designed to be built as one unit. Said unit also must be designed and constructed in such a way that it is not easily disassemble (23 CFR 658.5) nor intended for transport on its own chassis.

(f) Manufactured Home: A residential dwelling or building transportable in one or more sections which in the traveling mode has a box width of eight (8) feet or more and a box length of forty (40) feet or more with the total box width of all section(s) being no more than sixteen (16) feet and is designed to be transported on its own chassis.

(g) Modular Unit: A residential or commercial dwelling or building transportable in one or more sections, which in the traveling mode has a box width of eight (8) feet or more and a box length of forty (40) feet or more with all sections being no more than sixteen (16) feet in width. On-frame modular units are designed to be transported on its own chassis. Off-frame modular units are designed to be transported on a commercial trailer and offloaded with a crane and placed on a foundation. When hauling more than one section as defined in O.C.G.A. 32-6-28(1)(B) the overall length cannot exceed 80 feet including the hitch.

(h) Modular Unit Transporter: must meet all Federal Motor Carrier Safety Administration (FMCSA) and State safety requirements, rules, regulations and include proper vehicle registration and the proper vehicle tag; at a minimum it must be constructed of 12” I-beams doubled & fabricated together; all axles must have brakes; wood floor joist of each modular section must be securely attached to the beam with lag bolts & washers or lag bolts, washers and cable winches; overall length shall not exceed 80’ including the hitch.
(i) Single Trip Permit: A single trip permit may only be used once for movement during the times specified by such permit and must provide: a description of the load being transported, name of the transporter, point of origin and final destination.

(j) Multi-trip permit: As defined in O.C.G.A. 32-6-28(b)(4), the commissioner may issue a multitrip permit to any vehicle or load allowed by federal law. A multitrip permit authorizes the permitted load to return to its original destination on the same permit, if done so within ten (10) days, with the same vehicle configuration, and following the same route, unless otherwise specified by the Department. A multitrip permit authorizes unlimited permitted loads on the same permit, if done so within the allowable ten days, with the same vehicle configuration, and following the same route.

(k) Superload: A non-divisible load exceeding a width or height of 16’ and/or a gross vehicle weight exceeding 150,001 pounds up to a gross vehicle weight of 180,000 pounds. Axle weights and spacing are not required for superloads with dimensions only. However, once the gross vehicle weight exceeds 150,000 pounds, axle weights and spacings are required.

(l) Superload Plus: A non-divisible load exceeding a gross vehicle weight of 180,000 pounds; requires axle weights and spacings for a complete bridge analysis. Axle weights shall not exceed those axle weight limitations specified on the permit. In addition, all axle spacings must be accurate or longer than the axle spacings specified on the permit. Axle spacings which are less than those specified on the permit shall cause the permit to become void. Should this permit become void the overweight citation shall be based on all excess weight greater than 150,000 GVW, not the legal weight of 80,000 GVW.

(m) Annual Permit: Standard Annual permits are for specific types of loads with a maximum width of 12’, height up to 14’6”, length of 100 feet, and GVW of 100,000 pounds on a five (5) axle tractor-trailer combination. Annual Plus Permits are for specific types of loads but the width may be a maximum of fourteen (14) feet wide from the base of the load to a point ten (10) feet above the pavement and a width of fourteen feet and eight inches (14’8”’”) for the upper portion of the load, a height of 14’6” a length of 100 feet and a GVW of 100,000 pounds, on a five (5) axle tractor-trailer combination and can only be moved on the interstate and limited access routes.

(n) Annual Commercial Wrecker Emergency Tow Permit: Annual Commercial Wrecker Emergency Tow Permits are for towing disabled, damaged, abandoned, or wrecked commercial vehicles, including combination vehicles, with a maximum width of 12’, height up to 14’6”, length of 125’, and GVW of 100,000 pounds, even though such wrecker or its load exceeds the maximum limits specified in Code Section 32-6-28(b), O.C.G.A. An annual commercial wrecker emergency tow permit shall not authorize the operation of a vehicle:

(A) Whose single axle weight exceeds 25,000 pounds;
(B) Whose load on any tandem axle exceeds 50,000 pounds and whose load on any secondary tandem axle exceeds 28,000 pounds; or
(C) Whose total length exceeds 125 feet.
(o) Transport Vehicle: A term used to define a vehicle which is designed specifically for the purpose of transporting manufactured homes, sectional houses, or portable buildings.

(p) Amber warning light: A flashing or revolving light at least eight (8) inches in diameter, with a minimum candlepower of 35,000 lumens or equivalent, four (4) inch strobe light and shall flash so as to be visible from a distance of not less than one quarter mile. In lieu of the amber warning light also acceptable is a light-emitting diode (LED) light equipped with a multidirectional type lens, and shall flash at a rate of at least 60 flashes per minute and shall be plainly visible from a distance of at least 500 feet from the rear and sides at a radius of 180 degrees any time day or night.

(q) Certified Pilot/Escort Vehicle Driver: A certified pilot/escort vehicle driver shall be appropriately certified as required in Code Section 32-6-28(a)(8), O.C.G.A, and in Rule 672-2-.06 when operating in the state of Georgia.

(r) Police Escort: A police escort vehicle shall be an automobile with markings identifying its law enforcement jurisdiction and shall be equipped with a flashing or revolving blue light as defined in Code Sections 40-8-91 and 40-8-92, O.C.G.A. Carrier is responsible for providing two-way communication, in good working order, so that the driver of the permitted load, the civilian escorts (when required) and the police escorts will all have constant contact while escorting the oversized load.

672-2-.02 General Restrictions on Issuance of Permits. Amended.

(1) No Permit shall be issued if the issuance of the permit in any way jeopardizes federal funds appropriated to this State under the provisions of Title 23 of the U.S. Code.

(2) No single trip permit shall be valid in excess of ten (10) allowable travel days unless extension is granted by the Department. The validity of a single trip permit shall expire ten (10) days after its issuance.

(3) No permit shall be issued for off-the-road equipment which exceeds 25,000 pounds on any one axle. Off-the-road equipment with axle loads of not more than 25,000 pounds nor less than 20,340 pounds will be routed by the Oversize Permit Unit and limited to a ten (10) mile radius from the point where the trip originated.

(4) No permit shall be valid for travel into or through the area bounded by Interstate 285 which is the bypass around the City of Atlanta unless the vehicle is making a pickup or delivery within the area. The driver must be prepared to show proof of such pickup or delivery. In addition, a permit issued for the movement of a vehicle or load shall not be valid within that area between the hours of 7 a.m. and 9 a.m. and 3 p.m. and 6 p.m. Monday through Friday. Parking on the Interstate and Limited Access Highway Right-of-Way will not be permissible for permitted vehicles which are waiting for the authorized times of entry. The Department may at its discretion, limit travel in major cities as shown on the permit; or at the written request of local jurisdictions.
(5) The Department may sell any type of annual permit on a prorated basis to create a stagger for the renewal date.

672-2-.03 Conditions Attached to Issuance of Permits. Amended. In addition to compliance with any other conditions imposed on the issuance of a particular permit, any person receiving a permit from the Department thereby certifies that said person will comply or has complied (as applicable herein) with the following conditions governing the operation of permitted vehicles or loads. When intentional or due to gross negligence a violation of any of the following conditions is unlawful and punishable as a misdemeanor and may be considered as evidence supporting action to suspend or revoke or deny a permit;

(a) Federal and state laws and regulations. Said person will comply or has complied with the applicable laws and regulations of the United States and the State of Georgia, including but not limited to those of the Georgia Department of Revenue, Federal Motor Carrier Safety Administration, U.S. Interstate Commerce Commission, Georgia Department of Public Safety, and Title 32, Official Code of Georgia Annotated.

(b) A drivers signature signifies acknowledgement of understanding of all requirements listed on the permit. The signed permit must be in the cab of the vehicle transporting the load.

(c) Unless otherwise shown on the permit or further limited by specific rules hereinafter provided, said person will insure that the movement of a permitted vehicle or load will take place only on Monday through Saturday, from thirty (30) minutes after sunrise to thirty (30) minutes before sunset Eastern Standard Time or Eastern Daylight Savings Time, whichever is in effect for the period of the year during which the movement occurs. Permitted loads for weight up to 125,000 pounds without any dimensions exceeding legal limits, may have continuous movement, except that no permitted vehicle or load will be moved during foggy weather, or during snow or icy conditions, or during the following legal holidays: New Year's Day; Memorial Day; July 4th; Labor Day; Thanksgiving Day; and December 25th. Permitted loads in excess of twelve (12) feet wide shall not travel when visibility is less than six hundred (600) feet or when the ground wind exceeds twenty-five (25) miles per hour. When such conditions exist, the driver shall proceed to the first area where the load can be safely removed from the roadway.

(d) Route of Travel. Said person will not operate the permitted load or vehicle over any public road in the State other than those described or allowed on the permit or as allowed on the Department's Approved NHS Network. However, all permitted loads must comply with the load limitations posted at any bridge on any public road in the State. Single trip permit movements must follow the specific routing instructions listed on the permit. Unless there is a detour, then the load must comply with the routes identified for that detour.

(e) Persons/Companies obtaining permits are required to maintain the following liability coverage for the duration of the permit as required in Code Section 32-6-28(a)(9), O.C.G.A. For permitted loads whose GVW is less than or equal to 10,000 pounds: Bodily Injury Liability in the amount of $50,000 limit for injury or death per person as a result of any one
occurrence, Property Damage Liability in the amount of $50,000 limit for damage to property of others in any one occurrence. Insurance requirements for Commercial Motor Carriers whose GVW is greater than or equal to 10,001 pounds shall maintain the following coverage $1,000,000.00 minimum Property Damage to others in any one occurrence, $300,000.00 minimum for Bodily Injury for each person and $1,000,000.00 Multiple Persons injured per occurrence. Prior to receiving a permit, the person/company receiving a permit shall furnish the Department a copy of their insurance certificate. Nothing contained herein shall be construed so as to make the Department liable for any damage to public roads or bridges or to persons or private property caused by a permitted load or vehicle, or its escort vehicle. The person/company receiving the permit thereby promises to hold the Department harmless for such claims and to recompense the Department or a political subdivision for any expenditures made by the Department or political subdivision to repair damage caused by the permitted vehicle or load to a public road of the State Highway System or of a county road system or of a municipal street system, as applicable.

(g) Leased vehicles. The operator of a leased vehicle must carry on their person written proof of the identity of the lessee. Any owner/operator who the department has placed under suspension from ordering permits may not lease their vehicles to other companies with the purpose of transporting oversized loads in order to circumvent the suspension until the suspension period has expired, and all damages and claims have been paid to the State.

(h) Single trip permit. Said person will not allow the single trip permit to be used other than for the movement by the particular vehicle which is indicated on the permit.

(i) Any person or company that receives an annual permit from the Department agrees not to allow the permit to be used by any vehicle which is not owned by such person or company. Code Section 32-6-28(a)(2), O.C.G.A., which provides that annual permits may be interchanged from vehicle to vehicle shall only apply between those vehicles that are owned by the same person, firm, or corporation. For the purposes of this provision, a vehicle leased to a person or company shall be considered as owned by the person or company leasing said vehicle; but the operator of the vehicle must show proof of the lease agreement before the permit can be considered as valid by the enforcement personnel. Code Section 32-6-28(a)(3), O.C.G.A., further provides that every such permit shall be carried in the vehicle or combination of vehicles to which it refers. This shall mean that a photostatic copy of the permit will not be acceptable. The purpose of this requirement is to prevent the use of a permit by more than one vehicle at the same time.

(j) In addition to complying with all applicable Federal and State Laws and regulations, the person/company receiving the permit shall also comply with applicable County and Municipal ordinances when traveling off the State Highway System.

(k) In addition, a person/company accepting a permit for the movement of a permitted load with a width in excess of fourteen feet eight (14’8”) inches agrees that they have complied with the following conditions:
1. Movement will not be made on routes with bridges of less than 28' lateral clearance without a vehicle front escort.

2. During the movement of all permitted loads, it is required that all warning lights on the truck, transport vehicle, any required vehicle/police escorts, and unit shall be operating.

3. Movement will comply with all other laws, rules and regulations in reference to such moves.

(l) If a Superload plus permit becomes invalid, the overweight citation assessment shall be assessed at 125% as identified in O.C.G.A. 32-6-27(2) for all excess weight greater than 150,000 pounds, and the company/driver must obtain a new permit prior to travel.

672-2-.04 Special Conditions Attached to Permits for Houses.

(1) Houses. In addition to the conditions set forth in Rule 672-2-.03, "Conditions Attached to the Issuance of Permits," a person receiving a permit for the movement of a house certifies that said person will or has complied, as applicable, with the following conditions:

(a) Said person will use the following minimum equipment for moving the house: a tandem truck, capable of jacking the house up for a vertical clearance of no less than four (4) feet; one set of tandem dollies in good condition; a wench truck to remove signs & mail boxes; and one extra skidder or wrecker in good condition and capable of moving the whole load in case of a breakdown;

(b) Said person has measured the house and has, prior to applying for the permit, checked the route stated in the application for permit to insure obstacle clearance and necessary places periodically to pull off the road for the purpose of preventing unnecessary traffic congestion;

(c) All internal and external masonry must be removed before moving a house.

(d) All mail boxes, highway signs, and other movable obstacles shall be removed as the house approaches such an obstacle and shall be re-erected immediately in equal or better condition after the house passes such obstacle;

(e) The movement of the house will be confined to the route stated on the permit, and will not exceed any straight line distance of one hundred and fifty miles (150) miles between origin and destination;

(f) A house may be moved Monday through Saturday between the hours of 9:00 a.m. and 3:00 p.m., except in counties which require moves to be made after 12:00 midnight and before 5:00 a.m. and unless otherwise designated on the permit. Application for the movement of a house shall be made at least 72 hours prior to the time of movement with the prior approval of the local utilities affected. Exceptions to the times for house movements
will be considered if the hauler provides a written request from all local governments or police/sheriff offices along the proposed route(s);

(g) A National Joint Utility Notification System (NJUNS) approval is required on all loads with a height of 18’ or higher prior to the issuance of the permit.

672-2-.05 Special Conditions attached to Permits for Manufactured Homes, Modular Units, & Portable Buildings

(1) Manufactured Homes, Modular Units, or Portable Buildings in excess of ten (10) feet wide.
In addition to the conditions set forth in Rule 672-2-.03, Conditions Attached to the Issuance of Permits, a person by accepting a permit for the movement of a manufactured home, modular units, sectional house, or portable building in excess of ten (10) feet wide up to a maximum of sixteen (16) feet wide, agrees that the person will or has complied or understands as applicable, the following conditions:

(a) Manufactured Homes, Modular Units, or Portable Buildings shall be limited to a length of eighty (80) feet, including the hitch.

(b) Manufactured Homes, Modular Homes, or Portable Buildings in excess of twelve (12) feet wide, must be towed using a towing vehicle no smaller than a fifteen (15) foot transport vehicle and must be equipped with operating brakes on at least one-half of the axles. If unit has three (3) axles, at least two (2) axles must be equipped with functioning brakes.

(c) All necessary safety precautions shall be employed in crossing narrow bridges, including flagging other traffic to permit safe crossing.

672-2-.06 Pilot/Escort Vehicle Certification. Escorts of Permitted Vehicles or Loads. Amended.

Person’s or Companies being used as certified pilot/vehicle escorts shall meet the minimum requirements in O.C.G.A. 32-6-28(a)(8).

Any driver operating a vehicle escorting an oversize/overweight load shall meet the training requirements and the certification program by the Department. This certification may provide for reciprocity with other states having a similar pre-approved vehicle escort certification program. Certification credentials for the driver of an escort vehicle shall be carried in the vehicle and be readily available for inspection by law enforcement personnel or an authorized employee of the Department.

(1) Equipment: An escort vehicle shall be an automobile or pickup truck and shall be equipped with a revolving or flashing amber warning light located on top of the vehicle. The operator shall have obtained a permit from the appropriate state agency for the use of the light as required by the provisions of Code Sections 40-8-92, 40-8-93 and 40-8-95, O.C.G.A. Escort vehicles and the
vehicle transporting the permitted load will also be equipped with two-way communication, in good working order, so that the drivers will have constant communication with each other as well as communication with GDOT TMC Operators and enforcement personnel, if required, and any other escorts of the same load. The rear escort vehicle driver will advise the driver of the load and the front escort, when applicable, as to the traffic conditions behind the movement. When there are four or more vehicles behind the permitted load, the escort vehicles and the permitted load shall pull over and allow the traffic to pass.

(2) Signs:

(a) On all loads over legal width, or height, or length, a sign containing the wording “OVERSIZED LOAD” shall be mounted on the front of the escort vehicle (for a front escort) and to the rear of the escort vehicle (for a rear escort). The letters shall be black on an orange or yellow backboard and shall be at least eight (8) inches high and four (4) inches wide. The backboard shall be at least one (1) foot high and six (6) feet wide.

(3) When Required:

(a) As a condition of the issuance of a permit, the Department when it deems necessary in the interest of public safety in any case, may require the use of a front or rear escort, or both.

(b) It shall be an unlawful act punishable as a misdemeanor for any person to operate upon a public road of the State any equipment exempted from permit requirements by the provisions of Code Section 32-6-25, O.C.G.A., when such exempted equipment is wider than one lane of such public road and the operator of such exempted equipment has not provided both front and rear escorts thereof.

(c) Otherwise the following escort requirements shall apply:

1. LENGTH

   (i) For any permitted load whose length exceeds 75' but is less than or equal to 100', a Rear Escort/Amber Light is required.

   (ii) For any permitted load whose length exceeds 100' but is less than or equal to 125', a Vehicle Rear Escort is required.

   (iii) For any permitted load whose length is greater than 125’, a Vehicle Front and Vehicle Rear Escort is required.

2. HEIGHT

   (i) For any permitted load whose height is fifteen feet six inches (15’ 6") or greater, a Vehicle Front Escort with a Height Sensor is required unless the hauler has a valid trip approval ticket from NJUNS (National Joint Utilities Notification Service).
3. WIDTH

(i) For any permitted load whose width exceeds twelve feet (12’) but is less than or equal to fourteen feet eight inches (14’8”), a Vehicle Front Escort and a Rear Escort/Amber Lights is required for travel on a two (2) lane road. A Vehicle Rear Escort only is required for the same permitted load to travel on a four (4) lane road. For travel upon a Limited Access Highway, a Rear Escort/Amber Lights only are required.

(ii) For any permitted load whose width exceeds fourteen feet eight inches (14’8”) up to and including sixteen feet (16’), a Vehicle Front Escort and a Vehicle Rear Escort is required for movement upon a two (2) lane highway. A Vehicle Rear Escort only is required for movement of the same permitted load on a four (4) or more lane road or a Limited Access Highway.

(iii) For permitted loads whose width exceeds sixteen feet (16’) wide or for loads not defined above, the Department shall determine escort requirements on a case by case basis and may require a vehicle Police Escort with operating blue lights displaying their jurisdiction.

672-2-.07 Marking of Oversize Vehicles or Loads. Amended.

A sign of the same type required for an escort vehicle under the provisions of Rule 672-2-.06(2) shall be mounted on both the front of the vehicle and rear of the vehicle or load over eight feet six inches (8’6”) wide, thirteen feet six inches (13’6”) high and one hundred (100) feet in length. Such signs shall be removed when an oversize load is no longer being transported by a vehicle that exceeds the legal dimensions. In addition, a square red flag, eighteen inches (18”) on a side, shall be displayed at the corners of both sides of such overwidth vehicle or load, at both the front and rear thereof. Loads exempt from obtaining permits as defined in Code Section 32-6-25 and 32-6-25.1 are required to be marked as described in this section.

672-2-.08 Application for Permits. Amended.

(1) Requested through GDOT’s Oversize Permit Unit.

(2) Procedure:

(a) An application for a single trip permit may be made by telephone, by letter, by email, by facsimile transmission, electronically through our web based program or in person, giving the applicable information required. The permit fee shall be transmitted to the Oversize Permit Unit, State Department of Transportation, prior to the issuance of the permit. Such payment may be made by credit card, company check, money order, or by a certified or cashier’s check. A personal check will not be accepted. Checks and money orders shall be made payable to the Oversize Permit Unit, State Department of Transportation.
(b) The Oversize may use any of the following methods to transmit a single trip permit to an applicant: internet, e-mail, self-issue, facsimile transmission, mail, permit sending company, presentation in person.

(c) Annual Permit. An application for an annual permit shall be made on the prescribed application form. Upon approval of the application and payment of the required fee, the Oversize Permit Unit shall issue the permit by mail or present it to the applicant, as requested by the applicant. The manner of payment for annual permit fees shall be as prescribed for single trip permit fees.

672-2-.09 Revocation, Suspension of, Denial for Application or Renewal of Permits. Amended.

(1) Authority to revoke, suspend, or deny permits. The Oversize Permit Unit, State Department of Transportation, is hereby designated by the Commissioner of said Department as the official authorized to refuse, cancel, suspend or revoke the permit requested by an applicant or issued to a person/company.

(2) Reasons for justifying revocation, suspension, or denial of permit. Permits may be revoked, suspended, or denied for just cause, including but not limited to any one of the following reasons:

(a) Repeated past violations by the person/company or applicant, of a relatively minor nature;

(b) A single, but aggravated violation including, but not limited to, damage to public or private property, violations of safety requirements for police escorts, escort vehicles and lights, hours and days of operation, insurance requirements, reduced visibility, snow or ice conditions, braking axles, oversize load signs and willful deviation from the routes specified on a permit or allowed by a permit.

(c) A material misrepresentation made by the applicant for the intent of alteration of any original permit produced by the Department, by adding, deleting or changing any character, word, number, field or entry. Items added by routine fax transmission, such as company name, date and time shall not be considered as alterations.

(d) Failure to make payment in full for any fee assessments or taxes owed to the State of Georgia; or

(e) Any actions by the applicant or company that displays a total disregard for the safety of the traveling public or damages caused to state and private property including but not limited to public roads, bridges, signs & traffic signals.

(3) Penalties for violations of this subsection are: (1) first offense within a two-year period, 90 days suspension; (2) second offense within a two-year period, 180 days suspension; (3) third offense within a two-year period, 1 year suspension. Before the suspension for permits becomes final, the person who requested the permit shall have the right to an administrative hearing under
the Georgia Administrative Procedure Act and Rule 672-1-.05 of the Rules of the State Department of Transportation. In the event of a hearing request, the suspension of the permit shall become effective as of the date of the order which finally disposes of the administrative review.

(4) Appeal from revocation, suspension, denial of application, or renewal of permit. The procedure for appealing an adverse action by the Oversize Permit Unit is governed by Chapter 672-1, Rules of the State Department of Transportation.
It shall be the duty of all state and local law enforcement officers to enforce any provision of this title which
states that any act or omission is unlawful.

§32-1-10.  Penalty for violation.  
(a) Any person who violates any of the provisions of this title for which no specific penalty is provided,
whether or not such act or omission is expressly declared elsewhere in this title to be unlawful, or who violates
any of the rules and regulations issued under authority of and in accord with the provisions of this title shall be
guilty of a misdemeanor; provided, however, that a violation of Code Sections 32-6-26 and 32-6-27 shall not be
considered a crime.

(b) In addition to the penalty provided for in subsection (a) of this Code section, the department shall have
the right to enjoin any act or omission so punishable as a misdemeanor or punished otherwise as provided
elsewhere in this title.

CHAPTER 6
REGULATION OF MAINTENANCE AND USE OF PUBLIC ROADS
GENERALLY

Article 1
General Provisions

Section
§32-6-1.  Obstructing or injuring public roads.
§32-6-2.  Parking regulations with regard to public roads of the state highway system.
§32-6-3.  (Repealed and reserved by Ga.L.1999 p.81, Act 37(32), eff. 4/5/99.)

Article 2
Dimensions and Weight of Vehicles and Loads

§32-6-20.  Restrictions.
§32-6-21.  Secured loads only.
§32-6-23.  Vehicle width limits.
§32-6-25.  Size exemptions for agricultural and forestry equipment.
§32-6-25.1.  Size exemptions for port facility equipment.
§32-6-27.  Enforcement of limits.
§32-6-28.  Excess weight and dimension permits.
§32-6-29.  Enforcement of article duty Department of Transportation/Department of Public Safety.
§32-6-30.  Inspection of vehicle for violations of article.
§32-6-1. Obstructing or injuring public roads.

(a) It shall be unlawful for any person to obstruct, encroach upon, solicit the sale of any merchandise on, or injure materially any part of any public road. For purposes of this Code section, the term "obstruct" shall include without limitation the causing of any buildup of rock, gravel, mud, dirt, chemicals, or other materials by continued ingress or egress of vehicles or of any natural waters dammed or redirected by diversion to an extent which presents a hazard to the traveling public.

(b) Any person who unlawfully obstructs, encroaches upon, or injures said public road shall be responsible for reimbursing the Department of Transportation or the applicable local governing authority in the case of a road which is part of a county road system or municipal street system for the costs of removal of said obstructions or encroachments and the costs of repairs to the public road incurred by such department or local governing authority, including any costs associated with traffic management; provided, however, that such costs shall be limited to those costs which are directly incurred from such damages. Costs incurred for traffic management may include, but not be limited to, costs incurred for flagging, signing, or provision of detours, provided that these activities are directly caused by the obstruction, encroachment, or injury to the public road system. The court may, in addition to any other sentence authorized by law, order a person convicted of violating this Code section to make such restitution for the offense.

(c) Nothing in this Code section shall abridge or limit any authority provided by law for the installation and operation of vending machines at welcome centers, tourist centers, and safety rest areas. Nothing in this Code section shall limit in any way the department's authority to lease property to state or federal agencies, counties, or municipalities as provided for in Code Section 32-7-5, or limit the Department of Transportation's ability to grant a license to any utility or railroad corporation as defined in Code Section 46-1-1.

(Chgd. by Ga.L.2002 Act 917(4), eff. 7/1/2002.)

§32-6-2. Parking regulations with regard to public roads of the state highway system.

Notwithstanding Code Section 40-6-200 and Code Sections 40-6-202 through 40-6-204:

(1) The department may regulate and prohibit the parking of any type of vehicle on any public road on the state highway system, including extensions thereof into or through municipalities. Whenever any state or local law enforcement officer or employee of the Department of Motor Vehicle Safety to whom law enforcement authority has been designated finds a vehicle parked in violation of law or the department's regulations, such officer or employee is authorized to move such vehicle or require the driver or other person in charge of the vehicle to move the same. If the vehicle is unattended, such officer or employee is authorized to remove or provide for the removal of such vehicle to the nearest garage or other place of safety at the owner's expense. State or local law enforcement officers and the department are further authorized, with or without the consent of the owner, to remove or have removed any obstruction, cargo, or personal property which is abandoned, unattended, or damaged as a result of a vehicle accident which the department determines to be a threat to public health or safety or to mitigate traffic congestion.

(2) A county may regulate and control the parking of vehicles on the county road system and to this end the county may place parking meters on or immediately adjacent to any or all such roads, except extensions into a municipality, for the purpose of authorizing timed parking in designated spaces upon the payment of a charge for such privilege. A county may also place such parking meters on or adjacent to any public road on the state highway system located within the county and outside the corporate limits of a municipality when authorized by the department pursuant to paragraph (1) of this Code section;

(3) A municipality may regulate and control the parking of vehicles on its municipal street system and on extensions of a county road system within its corporate limits and to this end may place parking meters on or immediately adjacent to any or all of such roads for the purpose of authorizing timed parking in designated spaces upon the payment of a charge for such privilege. A municipality also may place such parking meters on or adjacent to any public road on the state highway system located within the corporate limits of the municipality when authorized by the department pursuant to paragraph (1) of this Code section; and
(4) It shall be unlawful for any person to park or leave unattended any vehicle upon the right of way of any public road on the state highway system for over 48 hours.

§32-6-3. (Repealed and reserved by Ga.L.1999 p.81, Act 37(32), eff. 4/5/99.)

Article 2
Dimensions and Weight of Vehicles and Loads

§32-6-20. Restrictions.

No vehicle or load shall be operated or moved upon the public roads of Georgia if a dimension or the weight of such vehicle or load exceeds the limitations specified in Code Sections 32-6-22 through 32-6-24 or in Code Section 32-6-26 unless exempted in Code Section 32-6-25 or authorized to do so by a permit issued pursuant to Code Section 32-6-28.

§32-6-21. Secured loads only.

(a) No vehicle shall be driven or moved on any public road unless such vehicle is constructed or loaded or covered so as to prevent any of its load from dropping, escaping, or shifting in such a manner as to create a safety hazard. However, this Code section shall not prohibit the necessary spreading of any substance in public road maintenance or construction operations.

(b) No person shall operate or load for operation, on any public road, any vehicle with any load unless such load and any covering thereon is securely fastened so as to prevent said covering or load from becoming loose, detached, or in any manner becoming a hazard to other users of the public road.

(c) Nothing in this Code section nor any regulations based thereon shall conflict with federal, Georgia Public Service Commission, or Georgia Board of Public Safety regulations applying to the securing of loads on motor vehicles.

(d) The provisions of subsection (b) of this Code section and regulations based thereon shall not apply to vehicles carrying silage from field to storage and storage to feedlot or vehicles or equipment carrying unginmed cotton.

(Chgd. by Ga.L.2002 Act 953(1), eff. 7/1/2002.)

(a) Except as authorized in subsection (b) of this Code section and except when so authorized by a permit issued pursuant to Code Section 32-6-28, no vehicle unladen or with a load shall exceed a height of 13 feet, six inches.

(b) On highways which constitute a part of The Dwight D. Eisenhower System of Interstate and Defense Highways as such term is used in 23 U.S.C. Section 127 and ramps or service streets which provide reasonable access thereto, no vehicle transporting motor vehicles (commonly known as automobile carriers) unladen or with a load shall exceed a height of 14 feet.

§32-6-23. Vehicle width limits.

Unless otherwise provided in this Code section or exempted in Code Section 32-6-25 or so authorized by a permit issued pursuant to Code Section 32-6-28, no vehicle shall exceed a total outside width, including any load thereon, of 102 inches, exclusive of mirrors and accessories attached thereto, when operated on any street, road, or highway.

(Chgd. by Ga.L.1999 p.567, Act 330(l), eff. 10/1/99.)

(a) As used in this article, the term:
(1) "Bimodal semitrailer" means a detachable load-carrying unit designed to be attached to a coupling on the rear of a truck tractor by which it is partly supported during movement over the highway and designed either with retractable flanged wheels or to attach to a detachable flanged wheel assembly for movement on the rails.

(2) "Combination of vehicles" means a semitrailer pulled by a truck tractor or a semitrailer and trailer pulled by a truck tractor operating in a truck tractor-semitrailer-trailer combination.

(3) "Extendable semitrailer" means a semitrailer that has been manufactured for the purpose of extending the frame to increase the overall length for the purpose of transporting single-piece loads.

(4) "NHS" means the National Highway System.

(5) "Semitrailer" means a detachable load-carrying unit designed to be attached to a coupling on the rear of a truck tractor by which it is partly supported.

(6) "Trailer" means a detachable load-carrying unit designed to be attached to a coupling at the rear of a semitrailer and capable of support in operation without the truck tractor.

(7) "Truck tractor" means the noncargo-carrying power unit that operates in combination with a semitrailer or trailer, except that a truck tractor and semitrailer engaged in the transportation of automobiles may transport motor vehicles on part of the power unit.

(b) Unless exempted in Code Section 32-6-25 or so authorized by a permit issued pursuant to Code Section 32-6-28, the following length limits shall apply:

(1) Trailer and semitrailer lengths:
   (A) Truck tractor-semitrailer-trailer combinations shall have trailers and semitrailers that do not exceed 28 feet in length;
   (B) Truck tractor-semitrailer combinations shall have semitrailers that do not exceed 53 feet in length, unless signs are posted that indicate semitrailer length restrictions;
   (C) On interstate and NHS system routes, single-piece loads may be transported on an extendable semitrailer that exceeds 53 feet, provided that no pieces will be loaded end to end and the semitrailer does not exceed 75 feet in length; on roads other than the interstate and NHS system routes, the foregoing provisions of this subparagraph shall also apply, except that the overall length shall not exceed 100 feet. Empty extendable semitrailers or extendable semitrailers transporting a single-piece load of 53 feet or less shall be required to maintain a semitrailer length of 53 feet or less. When the semitrailer is extended as described in this subparagraph, the rear extremity of each extendable semitrailer or load shall be marked with a four-inch multidirectional amber strobe light and with 18 inch bright red or orange warning flags on the rearmost of the load or semitrailer;
   (D) Maxi-cube combinations shall have a cargo box that does not exceed 34 feet, provided that the pair of cargo boxes together does not exceed 60 feet and the overall length, including the power unit, does not exceed 65 feet; and
   (E) Trailer and semitrailer length requirements in this paragraph shall not apply to automobile and boat transporters; however, no unit of the vehicle shall exceed 56 feet in length; and

(2) Overall truck tractor-semitrailer or truck tractor-semitrailer-trailer lengths:
   (A) Maxi-cube combinations shall have an overall length that does not exceed 65 feet;
   (B) Saddlemount and saddlemount with fullmount combinations shall have an overall length that does not exceed 97 feet; and

(C) All other combinations of truck tractor-semitrailer or truck tractor-semitrailer-trailer operated on roads other than interstate or the NHS system of roads shall have an overall length that does not exceed 100 feet, unless signs are posted that indicate length restrictions. This maximum length shall include the federal allowance for automobile and boat transporter loads to overhang up to three feet over the front of the vehicle and overhang up to four feet over the rear of the vehicle.

§32-6-25. Size exemptions for agricultural and forestry equipment.
The limitations of Code Section 32-6-23 as to width and of Code Section 32-6-24 as to length shall not apply to the following loads and vehicles, which may exceed such limitation without a permit: farming or agricultural
equipment or forest management equipment, whether self-propelled or being hauled, when such vehicle or
equipment is being operated during daylight hours upon a public road not part of The Dwight D. Eisenhower
System of Interstate and Defense Highways by dealers or by the owner thereof or his agent within a radius of 40
miles of the property of the dealer or owner. The foregoing exemptions do not apply to vehicles hauling or
transporting forest products.

§32-6-25.1. Size exemptions for port facility equipment.
The limitations of Code Section 32-6-23 as to width and of Code Section 32-6-24 as to length shall not apply
to the following loads and vehicles, which may exceed such limitation without a permit: Any vehicle or
equipment used for transporting cargo or containers between and within wharves, storage areas, or terminals
within the facilities of any port under the jurisdiction of the Georgia Ports Authority when such vehicle or
equipment is being operated upon any public road not part of The Dwight D. Eisenhower System of Interstate
and Defense Highways by the owner thereof or his or her agent within a radius of ten miles of the port facility
of origin and accompanied by an escort vehicle equipped with one or more operating amber flashing lights that
are visible from a distance of 500 feet.

(a) As used in this Code section, the term:
(1) "Federal bridge formula" means:

\[
W = 500((LN/N-1) + 12N +36)
\]

Where \( W \) = the overall gross weight on any group of two or more consecutive axles to the nearest 500 pounds,
\( L \) = the distance in feet between the extreme of any group of two or more consecutive axles, and \( N \) = the
number of axles in the group under consideration.
(2) "Lift axle" means any axle on any vehicle manufactured after July 1, 1978, which axle may be raised or
lowered with respect to the horizontal plane of the vehicle.
(3) "National highway" means any highway which constitutes a part of The Dwight D. Eisenhower System
of Interstate and Defense Highways as used in Section 127 of Title 23 of the United States Code.
(4) "Single axle" means all the wheels whose centers may be included between two parallel transverse
vertical planes 40 inches apart.
(5) "State bridge formula" means:

\[
W = 500((LN/N-1) + 12N +36)
\]

Where \( W \) = the maximum allowable gross weight of the vehicle or combination of vehicles to the nearest 500
pounds, \( L \) = the distance in feet between the first and last axles of the vehicle or combination of vehicles, and \( N \)
= the number of axles on the vehicle or combination of vehicles.

(6) "Tandem axle" means, until April 1, 1988, two or more consecutive axles, excluding the steering axle,
which extend across the full width of the vehicle and whose centers may be included between parallel vertical
planes spaced more than 40 inches apart but not more than 96 inches apart.
(7) "Tandem axle" means, after April 1, 1988, two or more consecutive axles, excluding the steering axle,
which extend across the full width of the vehicle and whose centers may be included between parallel vertical
planes spaced more than 40 inches apart but not more than 216 inches apart.
(b) Except when authorized by a permit issued pursuant to Code Section 32-6-28 and except as otherwise
provided in this Code section:
(1) No vehicle equipped with high pressure pneumatic, solid rubber, or cushion tires and operated upon any
public road of this state shall carry a load on any wheel which exceeds 8,000 pounds by more than 13 percent or
a load on any single axle which exceeds 16,000 pounds by more than 13 percent; and
(2) No vehicle equipped with low pressure pneumatic tires and operated upon any public road of this state shall carry a load on any wheel which exceeds 9,000 pounds by more than 13 percent or a load on any single axle which exceeds 18,000 pounds by more than 13 percent.

(c)(1)(A) On all highways within this state which are not national highways, the maximum total gross weight authorized for any vehicle and load shall not exceed 80,000 pounds; the maximum load authorized on any single axle shall be as provided in subsection (b) of this Code section; the maximum load on any tandem axle shall be 40,680 pounds; and subject to subparagraph (B) and subparagraph (C) of this paragraph, the maximum total gross weight authorized for any vehicle and load shall be the maximum load authorized on any single axle multiplied by the number of axles with which the vehicle is equipped.

(B) For vehicles and loads with an actual total gross weight between 73,280 pounds and 80,000 pounds, the maximum total gross weight authorized for the vehicle and load shall be determined by applying the state bridge formula.

(C) For any vehicle equipped with four axles, the maximum total gross weight authorized for the vehicle and load shall be 70,000 pounds.

(2) (Reserved.)

(3) After April 1, 1988, no lift axle may be used in computing the maximum total gross weight authorized for any vehicle or load.

(d)(1)(A) On all highways within this state which are national highways, except as provided in paragraph (2) of this subsection, the maximum total gross weight authorized for any vehicle and load shall not exceed 80,000 pounds; the maximum load authorized on any single axle shall be as provided in subsection (b) of this Code section; and, except as provided in subparagraph (B) of this paragraph, the maximum overall gross weight in pounds on a group of two or more consecutive axles shall be determined by applying the federal bridge formula. In applying the formula, no lift axle shall be counted as an individual or additional axle when determining the maximum overall gross weight.

(B) Notwithstanding the provisions of subparagraph (A) of this paragraph, the maximum load authorized on any tandem axle shall be 34,000 pounds, and any two consecutive sets of tandem axles may carry a gross load of 34,000 pounds each if the overall distance between the first and last axles of such consecutive sets of tandem axles is 36 feet or more; however, except for vehicles and combinations of vehicles exceeding 55 feet in length, the maximum gross weight authorized on a tandem axle for a vehicle or combination of vehicles carrying a gross weight of less than 73,280 pounds shall be 40,680 pounds.

(2)(A) Any vehicle registered with the Department of Revenue prior to April 1, 1983, shall be exempt from the provisions of paragraph (1) of this subsection until April 1, 1988, upon obtaining a special permit from the department or upon being otherwise exempt under an agreement entered into pursuant to the provisions of subsection (e) of this Code section. This permit shall be issued for identification purposes, shall be nontransferable, and shall be terminated on April 1, 1988. For vehicles operating on highways within this state which are national highways under a permit issued under this paragraph, the maximum total gross weight authorized for any vehicle and load shall not exceed 80,000 pounds; the maximum load authorized on any single axle shall be as provided in subsection (b) of this Code section; except as provided in subparagraph (B) of this paragraph, the maximum load on any tandem axle shall be 40,680 pounds; and, except as provided in subparagraph (C) of this paragraph, the maximum total gross weight authorized for any vehicle and load shall be the maximum load authorized on any single axle multiplied by the number of axles with which the vehicle is equipped.

(B) For vehicles or combinations of vehicles carrying a gross weight of more than 73,280 pounds or for vehicles or combinations of vehicles exceeding 55 feet in length, the maximum gross weight authorized on a tandem axle shall be 34,000 pounds.

(C) For vehicles or combinations of vehicles carrying a gross weight of more than 73,280 pounds, the maximum total gross weight authorized for any vehicle and load shall be determined by applying the federal bridge formula. In applying the formula, no lift axle shall be counted as an individual or additional axle.

(3) If at any time federal law authorizes any weight greater than that authorized by this subsection, such greater weight under federal law shall be authorized on the national highways within this state.

(e)(1) Subject to the provisions of this article, the department shall be authorized, on behalf of the state, to enter into agreements with the United States Secretary of Transportation as provided in Section 127 of Title 23
of the United States Code, relating to the control of vehicle weight and width limitations, which agreements shall exempt certain vehicles from the requirements of subsection (d) of this Code section. The department shall be authorized to take action in the name of the state to comply with the terms of any such agreement and to promulgate any rules and regulations necessary to ensure the department's compliance with federal laws and to provide for the issuance of the special permits required by this Code section.

(2) The department shall include in any agreement with the United States Secretary of Transportation a provision which ensures that any vehicle registered with the Department of Revenue prior to April 1, 1983, shall be exempt from the application of the federal bridge formula as required by subsection (d) of this Code section if the vehicle otherwise complies with the provisions of paragraph (2) of subsection (d) of this Code section and obtains a special permit from the department. The department shall also include in any agreement with the United States Secretary of Transportation a provision which ensures that any lift axle may be counted as an individual or additional axle when computing the maximum total gross weight authorized for a vehicle and load below 73,280 pounds as provided in subparagraph (d)(2)(A) of this Code section.

(3) Any agreement entered into pursuant to this subsection shall be terminated April 1, 1988.

(f) On any public road of a county road system, the maximum total gross weight of a vehicle and load shall not exceed 56,000 pounds unless the vehicle is making a pickup or delivery on such road; except that if a county road is constructed to the same standards as those highways of this state which are national highways and is authorized as a designated local truck route pursuant to official resolution of the county and approval of the commissioner, the maximum weight limits for such designated local truck route shall be the same as those for highways in this state which are not national highways as provided by paragraph (1) of subsection (c) of this Code section.

(g)(1) The weight limitations provided for in this Code section, except the limitation in subsections (f) and (h) of this Code section, may be exceeded on any public road within this state which is not a national highway, or when making a pickup or delivery on any public road of a county road system, without a permit only when the load on any single axle does not exceed 23,000 pounds, the load on any tandem axle does not exceed 46,000 pounds, and the maximum total gross weight of the vehicle and load does not exceed 80,000 pounds when:

(A) Hauling forest products from the forest where cut to the first point of marketing or processing;
(B) Hauling live poultry or cotton from a farm to a processing plant;
(C) Hauling feed from a feed mill to a farm;
(D) Hauling granite, either block or sawed, or any other naturally occurring raw ore or mineral for further processing, from the quarry or stockpile area to a processing plant located in the same or an adjoining county and construction aggregates hauled to any point, unless otherwise prohibited;
(E) Hauling solid waste or recovered materials from points of generation to a solid waste handling facility or other processing facility;
(F) Hauling concrete that is in a freshly mixed and unhardened state for delivery to a customer; or
(G) Hauling poultry waste from the point of origin to a farm.

No lift axle may be used in computing the maximum total gross weight authorized for any vehicle or load under this paragraph.

(2) A vehicle which is hauling the products listed in subparagraph (A) through (F) of paragraph (1) of this subsection or which is hauling any other agricultural or farm product from a farm to the first point of marketing or processing shall be permitted a 5 percent variance from the weight limitations in paragraph (1) of this subsection within a 100 mile radius of the farm of point of origin. Any person who violates the load limitations provided for in this paragraph by exceeding the 5 percent variance per single axle, tandem axle, or maximum total gross weight shall be fined on the basis of the weight limitations of paragraph (1) of this subsection, including the variance allowed by the paragraph.

(3) A vehicle which is hauling the products listed in subparagraph (G) of paragraph (1) of this subsection shall be permitted a 5 percent variance from the weight limitations in paragraph (1) of this subsection within a 250 mile radius of the farm or point of origin. Any person who violates the load limitations provided for in this paragraph by exceeding the 5 percent variance per single axle, tandem axle, or maximum total gross weight shall be fined on the basis of the weight limitations of paragraph (1) of this subsection and not on the basis of the variance allowed by this paragraph.
(4) Any vehicle carrying a load as authorized in this subsection at night shall be equipped with lights clearly visible for a distance of not less than 300 feet from the front and rear of the vehicle.

(h) Notwithstanding any provision of this Code section to the contrary, no vehicle or combination of vehicles shall be operated over any bridge with a posted limit which is less than the total gross weight of the vehicle and its load.

(i)(1) Any vehicle which can be made to comply with the requirements of this Code section by shifting the load and which is then loaded to comply with this Code section shall not be held to be in violation of this Code section.

(2) On all highways within this state which are not national highways:
  (A) Except as provided in subparagraph (B) of this paragraph, for all vehicles, fines for violations of the total gross weight limitations provided for in subsection (c) of this Code section shall be based on the amount by which the actual weight of the vehicle and load exceeds the allowable maximum weight determined under subsection (c) of this Code section.
  (B) For vehicles equipped with four axles, fines or violations of the total gross weight limitations provided for in subsection (c) of this Code section shall be based on the amount by which the actual weight of the vehicle and load exceeds 70,000 pounds.

(j) Except as provided in subsections (f) and (h) of this Code section, weight limits and axle definitions for any bimodal semitrailer, semitrailers, and trailers operated on highways and public roads within this state shall be weight limits and axle definitions authorized by federal law governing national highways.

§32-6-27. Enforcement of limits.

(a) Any person who violates the load limitation provisions of Code Section 32-6-26 shall be conclusively presumed to have damaged the public roads, including bridges, of this state by reason of such overloading and shall recompense the state for such damage in accordance with the following schedule:

(1) Five cents per pound for all excess weight over the allowed weight limitations, including any applicable variances;

(2) For the following vehicles, damages for excess weight shall be assessed at 125 percent times the rate imposed on offending vehicles operating without a permit:
  (A) Where a vehicle is authorized to exceed the weight limitations of Code Section 32-6-26 by a permit issued pursuant to Code Section 32-6-28, the term "excess weight" means that weight which exceeds the weight allowed by such permit; and
  (B) Where a vehicle is authorized to exceed the weight limitations of Code Section 32-6-26 by a permit issued pursuant to Code Section 32-6-28 as a superload permit or superload plus permit, the term "excess weight" means:
    (i) Any single axle weight which exceeds any single axle weight allowed by such a permit; and
    (ii) All weight greater than 150,000 pounds when the gross weight of the vehicle and load exceeds the gross weight allowed by such a permit or when any axle spacing is less than specified by such permit; or

(3) Any vehicle that utilizes idle reduction technology shall have any penalty for violating Code Section 32-6-36, except for subsections (f) and (h), calculated by reducing from the actual gross weight, single axle weight, tandem axle weight, or the allowed weight on any group of two or more axles the manufacturer’s certified weight of the idle reducing technology or 400 pounds, whichever is less. The operator of the vehicle shall present written certification from the manufacturer specifying the weight of the idle reducing technology and demonstrate that the idle reducing technology is fully functional at all times when so requested by any law enforcement officer of employee of the Department of Public Safety.

(b) The schedules listed in paragraphs (1) and (2) of subsection (a) of this Code section shall apply separately to:

(1) The excess weight of the gross load; and

(2) The sum of the excess weight or weights of any axle or axles;
provided, however, that where both gross load and axle weight limits are exceeded, the owner or operator shall be required to recompense the state only for the largest of the money damages imposed under items (1) and (2) of this subsection.

(c)(1) Within 30 days after the issuance of the citation, the owner or operator of any offending vehicle shall pay the amount of the assessment to the Department of Public Safety or request an administrative determination of the amount and validity of the assessment.

(2) The right to an administrative determination of the amount and validity of the assessment shall be granted only to the owner or operator of the offending vehicle.

(3) The party requesting an administrative determination of the amount and validity assessment shall deposit the amount of the assessment with the Department of Public Safety, within the time permitted to request such determination, before the determination will be granted. In the event the assessment is determined to be erroneous, the Department of Public Safety shall make a prompt refund of any overpayment after receipt of a final decision making such determination.

(4) If an administrative hearing is requested, it shall be held in accordance with Chapter 13 of Title 50, the "Georgia Administrative Procedure Act," and the rules and regulations of the Department of Public Safety. The scope of any such hearing shall be limited to a determination of:
   (A) The weight of the offending vehicle;
   (B) The maximum weight allowed by law on the roadway upon which the offending vehicle was operating; and
   (C) Whether the operator had in his or her actual possession a valid oversize or overweight permit issued by the Department of Transportation allowing the vehicle to operate in excess of the maximum weight otherwise allowed by law on the roadway upon which the offending vehicle was operated.

(5) Any person who has exhausted all administrative remedies available within the Department of Motor Vehicle Safety and who is aggrieved by a final order of the Department of Motor Vehicle Safety is entitled to judicial review in accordance with Chapter 13 of Title 50.

(6) If a party request an administrative determination of the amount and validity of the assessment and fails to appear without first obtaining permission from the administrative law judge or does not withdraw the request in writing no less than five days in advance of a scheduled hearing, the party shall be deemed in default and the citation to owe the sum of $75.00 in addition to the amount due on the citation, which sum shall represent hearing costs.

(d) All moneys collected in accordance with this Code section shall be disposed of as follows:
   (1) All moneys collected for violations of the weight limitations imposed by this article, shall be retained to the general fund of the state treasury;
   (2) All moneys collected for violations of the height, width, or length limitations imposed by this article, after the appropriate statutory deductions, shall be retained by the governing authority of the county wherein the violation occurred for deposit in the general treasury of said county;
   (3) Hearing costs imposed pursuant to paragraph (6) of subsection (c) of this Code section shall be retained by the Department of Public Safety;
   (4) Reissuance fees imposed pursuant to paragraph (4) of subsection (g) of this Code section shall be retained by the Department of Revenue; and
   (5) Restoration fees imposed pursuant to paragraph (1) of subsection (i) of this Code section shall be retained by the Department of Revenue.

(e) Any owner or operator of a vehicle which is operated on the public roads of this state in violation of the weight limitations provided in this article shall be required, in addition to paying the moneys provided in subsection (a) of this Code section, to unload all gross weight in excess of 6,000 pounds over the legal weight limit at the closest reasonable location.

(f) Any person authorized by law to enforce this article may seize the offending vehicle of an owner who fails or whose operator has failed to pay the moneys prescribed in subsection (a) of this Code section and hold such vehicle until the prescribed moneys are paid. Any person seizing such vehicle under this subsection or subsection (e) of this Code section may, when necessary, store the vehicle; and the owner thereof shall be responsible for all reasonable storage charges thereon. When any vehicle is seized, held, unloaded, or partially unloaded under these subsections, the load or any part thereof shall be removed or cared for by the owner or
operator of the vehicle without any liability on the part of the authorized person or of the state or any political subdivision because of damage to or loss of such load or any part thereof.

(g)(1) Whenever any person, firm, or corporation violates this article and becomes indebted to the Department of Public Safety because of such violations and fails within 30 days of the date of issuance of the overweight assessment citation either to pay the assessment or appeal to the Department of Public Safety for administrative review, as provided for in subsection (c) of this Code section, such assessment shall become a lien upon the overweight motor vehicle so found to be in violation, which lien shall be superior to all liens except liens for taxes or perfected security interests established before the debt to the Department of Public Safety was created.

(2) Whenever any person, firm, or corporation requests an administrative review, it shall be held in accordance with Chapter 13 of Title 50, the "Georgia Administrative Procedure Act." In the event that the administrative law judge finds in favor of the Department of Public Safety, the person, firm, or corporation shall pay the assessment within 30 days after the issuance of a final decision by the administrative law judge or, if judicial review is had in accordance with Chapter 13 of Title 50, then within 30 days after final judicial review is terminated. If the person, firm, or corporation fails to pay the assessment within 30 days, such assessment shall become a lien as provided for under paragraph (1) of this subsection.

(3) The Department of Public Safety shall perfect the lien created under this subsection by sending notice thereof on a notice designated by the commissioner of public safety, by first-class mail or by statutory overnight delivery, to the owner and all holders of liens and securities interest shown on the records of the Department of Revenue maintained pursuant to Chapter 3 of Title 40. Upon receipt of notice from the Department of Public Safety, the holder of the certificate of title shall surrender same to the state revenue commissioner for issuance of a replacement certificate of title bearing the lien of the department unless the assessment is paid within 30 days of the receipt of the notice. The Department of Revenue may append the lien to its records, notwithstanding the failure of the holder of the certificate of title to surrender said certificate as required by this paragraph.

(4) Upon issuance of a title bearing the lien of the Department of Public Safety, or the appending of the lien to the records of the Department of Revenue, the owner of the vehicle or the holder of any security interest or lien shown in the records of the Department of Revenue may satisfy such lien by payment of the amount of the assessment, including hearing costs, if any, and payment of a reissuance fee of $100.00. Upon receipt of such amount, the Department of Public Safety shall release its lien and the Department of Revenue shall issue a new title without the lien.

(h)(1) The Department of Public Safety, in seeking to foreclose its lien on the motor vehicle arising out of an overweight motor vehicle citation assessed under this article, may seek an immediate writ of possession from the court before whom the petition is filed, if the petition contains a statement of facts, under oath, by the Department of Public Safety, its agents, its officers, or attorney setting forth the basis of the petitioner's claim and sufficient grounds for issuance of an immediate writ of possession.

(2) The Department of Public Safety shall allege under oath specific facts sufficient to show that it is within the power of the defendant to conceal, encumber, convert, convey, or remove from the jurisdiction of the court the property which is the subject matter of the petition.

(3) The court before whom the petition is pending shall issue a writ for immediate possession, upon finding that the petitioner has complied with paragraphs (1) and (2) of this subsection. If the petitioner is found not to have made sufficient showing to obtain an immediate writ of possession, the court may, nevertheless, treat the petition as one being filed under Code Section 44-14-231 and proceed accordingly.

(4) When an immediate writ of possession has been granted, the Department of Public Safety shall proceed against the defendant in the same manner as provided for in Code Sections 44-14-265 through 44-14-269.

(i)(1) Whenever any person, firm, or corporation violates this article and fails within 30 days of the date of issuance of the overweight assessment citation either to pay the assessment or appeal to the Department of Public Safety for an administrative review as provided for under Chapter 13 of Title 50, the "Georgia Administrative Procedure Act," the Department of Revenue may act to suspend the motor vehicle license plate of the vehicle involved. However, if the person, firm, or corporation requests an administrative review, the Department of Revenue shall act to suspend the license plate only after the issuance of a final decision favorable to the Department of Public Safety and the requisite failure of the person, firm, or corporation to pay the
assessment. Upon such failure to pay the assessment, the Department of Revenue shall send a letter to the owner of such motor vehicle stating the fact of such overdue assessment. Upon receipt of such letter from the Department of Public Safety, it shall be the duty of the owner of such vehicle to notify the Department of Public Safety within 30 days of the date on which notification was mailed by the Department of Public Safety, as to whether the assessment has been paid. If such information is not received by the Department of Public Safety within the specified time period or if the assessment has not in fact been paid, the Department of Public Safety shall suspend the motor vehicle license plate issued to the motor vehicle involved in the overweight assessment citation and shall notify the owner of the motor vehicle that he or she must forward the motor vehicle license plate issued to such motor vehicle to the Department of Public Safety. If such information is not received by the Department of Public Safety within the specified time period or if the assessment has not in fact been paid, the Department of Public Safety shall suspend the motor vehicle license plate issued to the motor vehicle involved in the overweight assessment citation and shall notify the owner of the motor vehicle that he or she must forward the motor vehicle license plate issued to such motor vehicle to the Department of Public Safety. Upon complying with this subsection by paying the overdue assessment and upon submitting proof of compliance and paying a $10.00 restoration fee to the Department of Revenue, the commissioner of motor vehicle safety shall return any motor vehicle license plate suspended under this subsection to the owner of such motor vehicle. In cases where the motor vehicle license plate has been suspended under this subsection for a second or subsequent time during any two-year period, the Department of Revenue shall suspend the motor vehicle license plate for a period of 60 days and thereafter until the owner submits proof of compliance with this subsection and pays the $150.00 restoration fee to the Department of Revenue.

(2) Unless otherwise provided for in the Code section, notice of the effective date of the suspension of a motor vehicle registration occurs when the owner has actual knowledge or legal notice thereof, whichever first occurs. For the purpose of making any determination relating to the restoration of a suspended motor vehicle registration, no period of suspension shall be deemed to have begun until ten days after mailing the notice required in paragraph (1) of this subsection.

(3) For the purpose of this subsection, except where otherwise provided, the mailing of a notice to a person at the name and address show in records of the Department of Revenue maintained under Chapter 3 of Title 40 shall, with respect to the holders of the liens and security interest, be presumptive evidence that such person received the required notice.

(4) For the purposes of this subsection, except where otherwise provided, the mailing of a notice to a person or firm at the name and address shown on the overweight assessment citation shall, with respect to owners and operators of vehicles involved in an overweight assessment, be presumptive evidence that such person received the required notice.

(5) The state revenue commissioner may suspend the motor vehicle registration of any offending vehicle for which payment of an overweight assessment is made by a check that is returned for any reason.

(6) For the purposes of this subsection, where any provisions require the Department of Public Safety or the Department of Revenue to give notice to a person, which notice affects such person's motor vehicle license plate, the mailing of such notice and the name and address shown on the notice of overdue assessment citation supplied by the Department of Motor Vehicle Safety, as required by this subsection, shall be presumptive evidence that such person received the required notice.

§32-6-28. Excess weight and dimension permits.

(a) Generally.

(1)(A) The commissioner or an official of the department designated by the commissioner may, in his or her discretion, upon application in writing and good cause being shown therefore, issue a permit in writing authorizing the applicant to operate or move upon the state's public roads a motor vehicle or combination of vehicles and loads whose weight, width, length, or height, or combination thereof, exceeds the maximum limit specified by law, provided that the load transported by such vehicle or vehicles is of such nature that it is a unit which cannot be readily dismantled or separated; and provided, further, that no permit shall be issued to any vehicle whose operation upon the public roads of this state threatens to unduly damage a road or any appurtenance thereto, except that the dismantling limitation specified in this Code section shall not apply to loads which consist of cotton, tobacco, concrete pipe, and plywood that do not exceed a width of nine feet or of round bales of hay that do not exceed a width of 11 feet and which are not moved on part of The Dwight D. Eisenhower System of Interstate and Defense Highways. However, vehicles transporting portable buildings and
vehicles not exceeding 65 feet in length transporting boats on roads not a part of The Dwight D. Eisenhower System of Interstate and Defense Highways, regardless of whether the nature of such buildings or boats is such that they can be readily dismantled or separated, may exceed the lengths and widths established in this article, provided that a special permit for such purposes has been issued as provided in this Code section, but no such special permit shall be issued for a load exceeding 12 feet in width when such load may be readily dismantled or separated. A truck tractor and low boy type trailer may, after depositing its permitted load, return to its point of origin on the authorization of its original permit.

(B) Notwithstanding the provisions of subparagraph (A) of this paragraph, the commissioner or an official of the department designated by the commissioner may, in his or her discretion, upon application in writing and good cause being shown therefore, issue to a specific tow vehicle a permit in writing authorizing the applicant to operate or move upon the state's public roads a motor vehicle or combination of vehicles and loads for transporting not more than two modular housing units or sectional housing units if the total weight, width, length, and height of the vehicle or combination of vehicles, including the load, does not exceed the limits specified in Code Section 32-6-22, Code Section 32-6-26. Permission to transport two modular housing units is only authorized when the modular unit transporter meet the minimum specifications contained in subparagraph (C) of this paragraph. No permit shall be issued to any vehicle or combination of vehicles whose operation upon the public roads of this state threatens the safety of others or threatens to damage unduly a road or any appurtenance thereto.

(C) A modular unit transporter shall meet all requirements of the Federal Motor Carrier Safety Administration and all state safety requirements, rules and regulations. The modular unit transporter shall be properly registered and have a proper, current license plate. At a minimum, the modular unit transporter shall:

(i) Be constructed of 12 inch steel I beams doubled and welded together.
(ii) Have all axles equipped with brakes;
(iii) Have every floor joist on each modular section securely attached to the beams with lag bolts and washers, or lag bolts, washers, and cable winches; and
(iv) Have an overall length not to exceed 80 feet including the hitch.

(2) Permits may be issued, on application to the department, to persons, firms, or corporations without specifying license plate numbers in order that such permits which are issued on an annual basis may be interchanged from vehicle to vehicle. The department is authorized to promulgate reasonable rules and regulations which are necessary or desirable to govern the issuance of such permits, provided that such rules and regulations are not in conflict with this title or other provisions of law.

(3) Every such permit shall be carried in the vehicle or combination of vehicles to which it refers and shall be open to inspection by any police officer, state trooper, or authorized agent of the department.

(4) The application for any such permit shall describe the type of permit applied for, as said types of permits are described in subsection (c) of this Code section. In addition, the application for a single-trip permit shall describe the points of departure and destination.

(5) The commissioner or an official of the department designated by the commissioner is authorized to withhold such permit or, if such permit is issued, to establish seasonal or other time limitations within which the vehicles described may be operated on the public road indicated, or otherwise to limit or prescribe conditions of operation of such vehicles when necessary to ensure against undue damage to the road foundation, surfaces, or bridge structures, and to require such undertaking or other security as may be deemed necessary to compensate the state for any injury to any roadway or bridge structure.

(6) For just cause, including, but not limited to, repeated and consistent past violations, the commissioner or an official of the department designated by the commissioner may refuse to issue or may cancel, suspend, or revoke the permit and any permit privileges of an applicant or permittee. The specific period of time of any suspension shall be determined by the department. In addition, any time the restrictions or conditions within which a permitted vehicle must be operated are violated, the permit may be immediately declared null and void.

(7) The department is authorized to promulgate rules and regulations necessary to enforce the suspension of permits authorized in this Code section.

(8) The department shall issue rules to establish a driver training and certification program for drivers of vehicles escorting oversize/overweight loads. Any driver operating a vehicle escorting an oversize/overweight load shall meet the training requirements and obtain certification under the rules issued by the department.
pursuant to this Code section. The rules may provide for reciprocity with other states having a similar program for escort certification. Certification credentials of the driver of an escort vehicle shall be carried in the escort vehicle and be readily available for inspection by law enforcement personnel or an authorized employee of the department. The department shall implement the vehicle escort driver training and certification program on or before July 1, 2010, and the requirements for training and certification shall be enforced on or before January 1, 2011.

(9) Permit holders shall be required to meet the following minimum insurance standards:
   (a) For loads where the gross vehicle weight is less than or equal to 10,000 pounds:
      (i) For bodily injury a limit of $50,000.00 per person for injury or death as a result of any one occurrence; and
      (ii) For property damage a limit of $50,000.00 for damage to property of others in any one occurrence; or
   (b) For commercial motor carriers where the gross vehicle weight is greater than 10,000 pounds:
      (i) For bodily injury a minimum of $300,000.00 for each person and $1 million for multiple persons for injury or death as a result of any one occurrence; and
      (ii) For property damage a minimum of $1 million for damage to property of others in any one occurrence.

(b) Duration and limits of permits.
   (1) Annual permit. The commissioner or an official of the department designated by the commissioner may, pursuant to this Code section, issue an annual permit which shall permit a vehicle to be operated on the public roads of this state for 12 months from the date the permit is issued even though the vehicle or its load exceeds the maximum limits specified in this article. However, except as specified in paragraph (2) of this subsection, an annual permit shall not authorize the operation of a vehicle:
      (A) Whose total gross weight exceeds 100,000 pounds;
      (B) Whose single axle weight exceeds 25,000 pounds;
      (C) Whose total load length exceeds 100 feet;
      (D) Whose total width exceeds 102 inches or whose load width exceeds 144 inches;
      (E) Whose height exceeds 14 feet and six inches.
   (2) Annual permit plus. Vehicles and loads that meet the requirements for an annual permit may apply for a special annual permit to carry wider loads on the NHS system of roads. The wider load limits shall be a maximum of 14 feet wide from the base of the load to a point 10 feet above the pavement and 14 feet and eight inches for the upper portion of the load.
   (3) Annual commercial wrecker emergency tow permit. Pursuant to this code section the commissioner may issue an annual permit for vehicles towing disabled, damaged, abandoned or wrecked commercial vehicles including combination vehicles, even though such wrecker or its load exceeds the maximum limits specified in this article. An annual commercial wrecker emergency tow permit shall not authorize the operation of a vehicle:
      (A) Whose single axle weight exceeds 25,000 pounds;
      (B) Whose load on any tandem axle exceeds 50,000 pounds; and whose load on any secondary tandem axle exceeds 38,000 pounds; or
      (C) Whose total load length exceeds 125 feet.
   (4) Six-month permit. Six-month permits may be issued for loads of tobacco or unginned cotton the widths of which do not exceed nine feet, provided that such loads shall not be operated on The Dwight D. Eisenhower System of Interstate and Defense Highways.
   (5) Single trip. Pursuant to this Code section, the commissioner may issue a single-trip permit to any vehicle.
   (6) Multitrip. Pursuant to this Code section, the commissioner may issue a multitrip permit to any vehicle or load allowed by federal law. A multitrip permit authorizes the permitted load to return to its original destination on the same permit, if done so within ten days, with the same vehicle configuration, and following the same route, unless otherwise specified by the department. A multitrip permit authorizes unlimited permitted loads on the same permit, if done so within the allowable 10 days, with the same vehicle configuration, and following the same route.
(c) Fees. The department may promulgate rules and regulations concerning the issuance of permits and charge a fee for the issuance thereof as follows:

1. Annual permit. Charges for the issuance of Standard Annual permits shall be $150.00 per permit.
2. Annual permit plus. Charges for the issuance of Annual Plus permits shall be $500.00 per permit.
3. Annual commercial wrecker emergency tow permit. Charges for the issuance of annual commercial wrecker emergency tow permits shall be $500.00 per permit.
4. Six month permit. The charges for the issuance of six-month permits for loads of tobacco or unginned cotton shall be $25.00 per permit.
5. Single trip. Charges for the issuance of single-trip permits shall be as follows:
   A. Any load not greater than 16 feet wide, not greater than 16 feet high, and not weighing more than 150,000 pounds or any load greater than 100 feet long which does not exceed the maximum width, height, and weight limits specified by this subparagraph $30.00
   B. Superload permit - Any load having a width, height, or weight exceeding the maximum limit therefore specified in subparagraph (A) of this paragraph and not weighing more than 180,000 pounds $125.00
   C. Superload Plus permit - Any load having a weight exceeding the maximum limit therefore specified in subparagraph (B) of this paragraph $500.00
6. Multitrip permit – Charges for the issuance of multitrip permits shall be $100.00 for any load not greater than 16 feet wide, not greater than 16 feet high, and not weighing more than 150,000 pounds or any load greater than 100 feet long which does not exceed the maximum width, height, and weight limits specified by this paragraph.
(d) Notwithstanding any provision of Code Section 48-2-17 to the contrary, all fees collected in accordance with this Code section shall be paid to the treasurer of the department to help defray the expenses of enforcing the limitations set forth in this article and may also be used for public road maintenance purposes in addition to any sums appropriated therefore to the department.

§32-6-29. Responsibility of the Department of Transportation; responsibilities of the Department of the Department of Public Safety.
(a) The Department of Transportation shall be responsible for rules and regulations relating to size and weight limits and issuance of permits under this article.
(b) The Department of Transportation shall not, however, employ any law enforcement officers or agents except as may be specifically authorized by other laws. Law enforcement responsibilities for enforcement of this article shall be in the Department of Public Safety.
(c) (Reserved.)
(d) (Reserved.)
(e) (Chgd. by Ga.L.2000 p.136, Act 737(2-6), eff. 4/28/2000, p.1654, Act 768(1), eff. 7/1/2000.)

§32-6-30. Inspection of vehicle for violations of article.
